AMAN KUMAR MAURYA

has successfully completed the online, non-credit Specialization

Security in Google Cloud Platform

In this three-course accelerated specialization, learners explored and deployed the components of a secure Google Cloud Platform solution. Through lectures, demonstrations, and hands-on labs, learners also developed mitigation techniques for attacks at many points in a GCP-based infrastructure, including Distributed Denial-of-Service attacks, phishing attacks, and threats involving content classification and use.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
